DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

It is noted that the allowance of 10/19/07 stated on the cover page that claims 51-20 are allowed. However, it should have stated that claims 51-120 are allowed (as stated on page 2 of the notice of allowance.)

It is also noted that the reasons for allowance should have stated that it is the McMahon reference that refers to pore size rather than thickness of the nitrocellulose, and the Brigati reference teaches 2 micron thickness nitrocellulose but does not have energetic surface-altering treatment.

Ann Y. Lam

Primary Patent Examiner
